

ENERLOGIC 70: FOR COOLER CLIMATES

TAKING THE INDUSTRY
by Storm

ALLOWS THE WINTER SUN'S NATURAL LIGHT AND WARMTH THROUGH

WHILST SHIELDING AWAY THE HEAT FROM THE SUMMER SUN

KEEPS IN MORE THAN 90% OF WINTER HEAT

BENEFITS

1. Improves insulating power of single glazing by up to 92%.
2. Provides a perfect balance of energy efficiency, comfort, and cost savings – all year long.
3. Upgrades the annual insulating performance of single-pane windows to that of double-pane windows and double-pane to triple-pane.
4. Performs up to 5 times better than any other low-e film currently in the market.
5. Offers faster payback than other energy efficiency measures such as replacing windows or heating or cooling systems.
6. Compatible with high efficiency lighting (low iridescence).
7. Tough new patent-pending scratch resistant surface.
8. Low e-coating directs solar and radiant heat to its source for substantial energy savings.

Heat Rejection	49%
Glare Rejection	22%
Ultra Violet Rejection	99%
Shading Co-efficient	0.59
Light Transmitted	70%
U-Value (w/sq.m.K)	3.464
Internal Light Reflection	4%

WARRANTY

10 years for Commercial & Residential

SENSE AND
Sustainability

GIVE EVERY HOME OR OFFICE *the Green Light*

We pride ourselves on the look and feel of our homes, and with Enerlogic Window Film you're not only creating inner comfort, you're outsmarting the heat of summer and the chill of winter without breaking the budget!

In fact, this film is spectacular value for money - it equates to almost a quarter of the cost of double glazing, and delivers maximum energy efficiency throughout each and every season...

EQUIVALENT THERMAL PERFORMANCE TO DOUBLE GLAZING BUT ALMOST A **QUARTER OF THE PRICE**

ADDS UP TO **92% MORE INSULATION** TO YOUR WINDOWS

WINDOW FILM FOR BOTH **WARM AND COOL CLIMATES**

10 REASONS WHY *you'll love Enerlogic*

1. *Equates to double glazing but almost a quarter of the price*
2. *Quick and Easy Installation, no frame or glass replacement*
 3. *Perfect insulation film for winter climates*
4. *No replaced glass, frames and leftover material to add to landfill*
 5. *Perfect heat rejection film for warmer climates*
6. *No new use of aluminium or extra glass therefore substantially less CO₂ is used*
 7. *Adds up to 92% more insulation to windows*
 8. *Comes with a 10 year warranty*
9. *Saves on your power bills (less use of heaters and air con)*
10. *Following a 2 year trial Enerlogic is now available in Australia!*

NO OTHER ENERGY FILM ON THE MARKET CAN MATCH THE PERFORMANCE OF ENERLOGIC.
and that's a fact...
